## SUMMARY

Computer Science student at Maharaja Agrasen Institute of Technology, with a strong foundation in full-stack web development. Specializes in frontend development and user-centric website design. Passionate about problem-solving and algorithmic challenges.

## EDUCATION

**MAHARAJA AGRASEN INSTITUTE OF TECHNOLOGY**                                    Rohini, New Delhi
Bachelor of Engineering (Computer Science Engineering)                          Expected June 2027
GPA: 8.2

**BHAI PARMANAND VIDYA MANDIR**                                    Anand Vihar, New Delhi
Senior Secondary (90.2%)                                                        2021 - 2023

**AIR FORCE SCHOOL HINDAN**                                          Hindan, Ghaziabad
Senior Secondary (93.5%)                                                        2009 - 2021

## PROJECTS

**FOCUSNEST**                                                                   Jan 2025
- Developed a web extension for productivity users that combines pomodoro timer with to-do list
- Implemented Chrome's Extension API to run scripts in background and data persistence using local storage

**OPULENCE**                                                                    Dec 2024
- Developed frontend of a web application that allows users to view the menu and make reservations at a restaurant
- It streamlines the dining experience by providing essential information about available dishes and booking options

**SPEEDMASTER**                                                                 Jan 2025
- Designed and implemented an alternate product landing page for the iconic Omega Speedmaster collection.
- The project highlighted the watch's legacy and provided users with excellent user experience and interface.

## TECHNICAL SKILLS

**Language**: C++, Java, Python, HTML/CSS, Javascript
**Frameworks:** React, Node.js, Express.js
**Database:** MongoDB, PostgreSQL
**Developer Tools:** Git, Docker, Linux, IntelliJ, Github, VS Code
